Feb 2024 – Jun 2024

- Developed “College2Career” – a .NET Core 8 based multi-role college placement system.
- Built JWT auth backend, integrated SMTP, Cloudinary, AI chatbot; React + React Native frontend.
- Implemented secure login, offer letters, scheduling, and real-time updates.

Full Stack Developer Trainee, NJ India Invest Pvt. Ltd.

Jun 2023 – Apr 2024

- Created dynamic UIs using React.js, Tailwind CSS, and JavaScript.
- Developed RESTful APIs in Java Spring Boot (MVC layered).
- Maintained MySQL databases with CRUD and optimized schema design.

PROJECTS

College2Career (React.js, React Native, .NET Core, SQL)

A college placement platform connecting students and recruiters. Companies post vacancies, schedule interviews, and send offer letters. Students apply via a mobile app. Admins manage users, notifications, and real-time updates. Backend: .NET Core Web API, JWT authentication, SMTP for emails, Cloudinary for images, AI chatbot.

TaskZen (Spring Boot, JSF, JavaScript, Tailwind CSS)

A freelancing platform for secure client-freelancer interactions, including task posting, bidding, and contract management. JWT authentication and Razorpay integration for payments. Features real-time messaging and task tracking.

BDCS (PHP, MySQL, Tailwind CSS)

Blood Distribution and Collection System to track blood donations, donor data, and hospital inventory. Developed with PHP, MySQL, and a Tailwind CSS frontend. Aimed to improve efficiency and reduce errors in blood management.

CERTIFICATIONS

Full Stack Developer, Advanced Java + RDBMS, Web Designing – NJ India Invest Pvt. Ltd.
